From: Barbara Rahder/fs/YorkU

To: Judy Horwood/fs/YorkU@YORKU,

Dear York University Committee on Responsible Investing,

Given what is happening south of our border, it is now more important than ever to use our money to support Canadian values of peace and sustainability and to withdraw funding for weapons, war and other forms of environmental degradation. As a result, I am in full support of York's divesting from fossil fuels and from Lockheed Martin, Northrop Grumman, BAE Systems, Amphenol and Textron Inc.

Sincerely,

Barbara Rahder
