To: Judy Horwood/fs/YorkU@YORKU,

Dear YUACRI

As the former Chair of the President's Sustainability Council, I am writing to enthusiastically support the two proposals made to YUACRI (YU Divest and Fossil Free York). Both proposals are very well put together, providing detailed and convincing evidence and reasons explaining why York should divest from arms manufacturers and the fossil fuel industry. Both proposals are made by broad coalitions of students and faculty that have been calling for these changes to happen for some time.

These are precisely the type of proposals that YUACRI was intended to review and hopefully approve, and I congratulate YUACRI on creating the space enabling York community members to present such well articulated and much-needed proposals.

Best regards,

Ilan Kapoor
