Hi,

Trump is supposed to increase defense spending and Lockheed Martin is supposed to benefit largely from that.

An unstable world is where Lockheed Martin or other weapons manufacturers profit.

However, we are going to forgo potential great returns because we don't agree on a principle?

Responsible investing is very overrated in my opinion and varies greatly by individuals.

Generating decent returns is so difficult in this turbulent world economy as it is, why handicap it even more?

Fossil free York? I think we have too many idealists.

No to responsible investing. Yes to smart investing to generate higher returns.

Thank you,

*Jonathan Choi*

Subject: [YUSAPUY-L] Proposals Related to Responsible Investment  
Sent by: YusApuY membership announcements <YUSAPUY-L@YORKU.CA>

Message sent on behalf of Irene Henriques, Chair, YUACRI

The York University Committee on Responsible Investing (YUACRI) has received two proposals from the York Community related to responsible investment. One proposal submitted is related to the divestment of weapons and the second proposal is on the divestment of fossil fuels.

The Committee requests input from the York Community on these two proposals. They can be located through the following link: <http://yuacri.info.yorku.ca/proposals-submitted/>. All comments should be provided in writing to [jhorwood@yorku.ca](mailto:jhorwood@yorku.ca).
