As a faculty member who was originally opposed to the #YUDivest campaign and was extremely embarrassed to see it approved by YUFA, I am now horrified that the #YUDivest campaign has moved its proposal up the ladder to the York University Advisory Committee on Responsible Investing (YUACRI), in the expectation that it would move from there on to York's Board of Governors.

York's reputation in the Toronto community is already terribly tainted by these decisions and to see them proceed farther will only inflame the anti - York sentiments and actions leading to declining admissions.

This is not multi-culturalism!

A faculty member whose daughters attended York when it was still considered a great multi-ethnic school,

Maxine Gallander Wintre, Ph.D., C. Psych.
Professor
York University
