Dear Judy Horwood,

I find these reports very well argued and persuasive. I think it is incumbent on a university to set a high moral standard when it comes to investing its funds, and therefore fully support the recommendations in both reports.

The York University Committee on Responsible Investing (YUACRI) has received two proposals from the York Community related to responsible investment. One proposal submitted is related to the divestment of weapons and the second proposal is on the divestment of fossil fuels.

The Committee requests input from the York Community on these two proposals.
