I wish to express my strong objection and rejection of the YU Divest Proposal. The proposal meant to censure the weapons manufacturing industry is used to delegitimize and demonize the State of Israel. This new form of anti-semitism has no place at York.

The York University Committee on Responsible Investing (YUACRI) has received two proposals from the York Community related to responsible investment. One proposal submitted is related to the divestment of weapons and the second proposal is on the divestment of fossil fuels.

The Committee requests input from the York Community on these two proposals. They can be located through the following link:
